Test Closure Report

Project Name: Travel Hub – Online Booking & Reservation

Release Version: 1.0

Prepared By: Banashry Adak

Test Cycle: System Testing

Start Date: 4 March 2026

End Date: 24 March 2026

Report Date: 25 March 2026

1. Objective

The purpose of this report is to summarize the testing activities, results, and status of the Travel Hub – Online Booking & Reservation before test closure. It ensures that all planned test cases have been executed, bugs have been addressed, and the system is ready for release or demonstration.

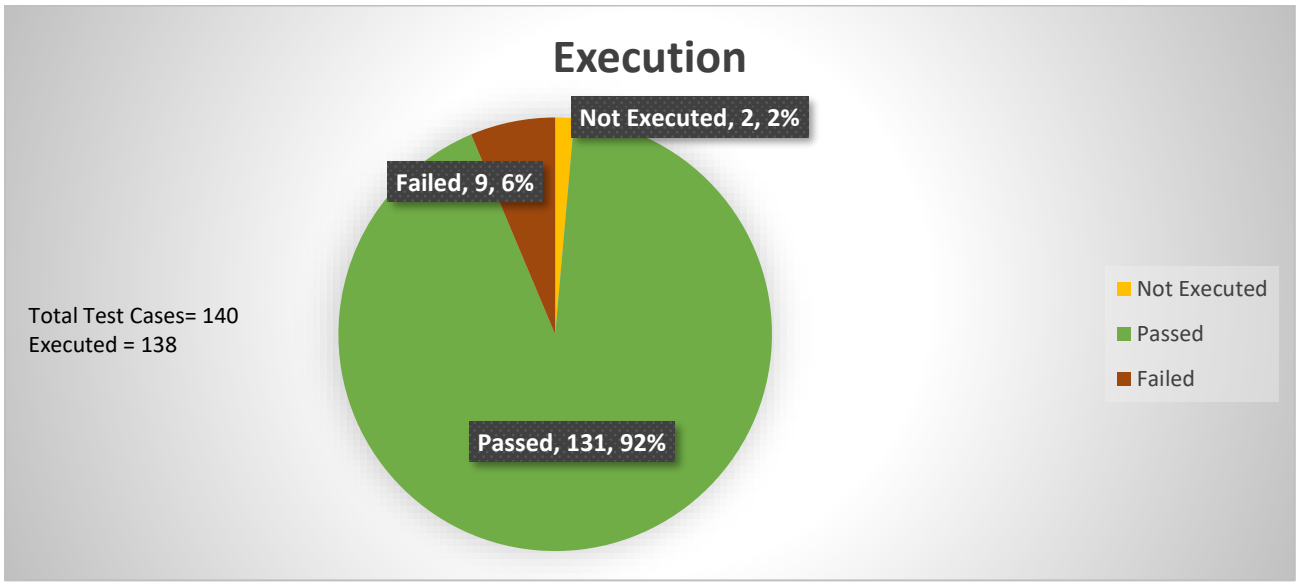
2. Scope of Testing

- Functional testing of **User Registration, Login, Logout, Profile Management, Attraction Search, Room Reservation, Flight Ticket Booking.**

- Executed **test cases per sprint** following Agile Scrum methodology.
- Logged and tracked **defects in Jira**; regression testing done after each sprint.
- Verified **functional flows, error handling, and UI consistency**.
- Focused on **manual functional testing only**; non-functional testing not included.

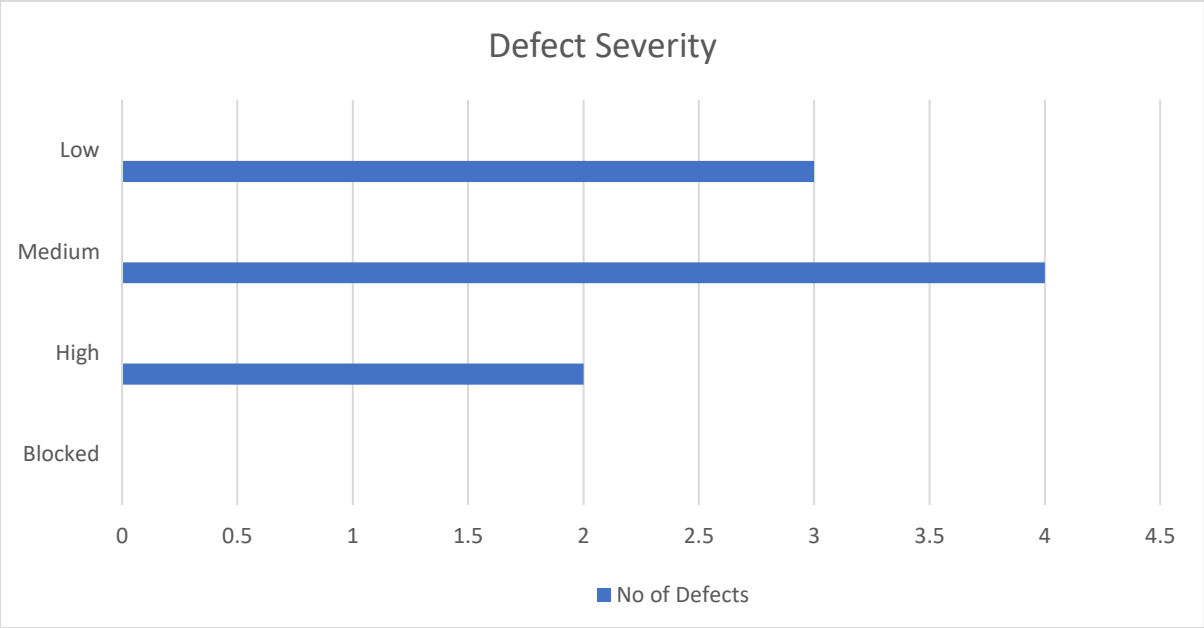
3. Test Summary

Module	Total TC	Executed	Not Executed	Passed	Failed	Blocked	Pass%
Registration	21	20	1	17	3	0	80%
Login	20	19	1	18	1	0	90%
Logout	10	10	-	10	-	0	100%
Profile	10	10	-	9	1	0	90%
Room Reservation	31	31	-	28	3	0	90%
Flight Ticket Booking	19	19	-	19	-	0	100%
Attractions	15	15	-	14	1	0	93%
Payment	14	14	-	14	-	0	100%
Total	140	138		129	9	0	-



4. Defect Summary

Defect ID	Module	Severity	Status	Description
THOBR 11	Registration Page	High	Closed	Register with already registered email ID
THOBR 13	Registration Page	Medium	Closed	Third-party authentication icons are not visible
THOBR 14	Registration Page	Low	Open	navigate registration form using Tab key
THOBR 15	Login Page	High	Closed	login with unregistered email
THOBR 16	Profile Management	Medium	Closed	"Book Again" button is disabled
THOBR 17	Room Reservation Page	Medium	Closed	System allows user to proceed with invalid location input
THOBR 18	Room Reservation Page	Medium	Closed	Fav icon is disabled
THOBR 19	Room Reservation Page	Low	Open	Share icon is disabled
THOBR 21	Attraction page	Low	New	System accepts invalid destination



5. Test Metrics

Metrics	Value
Total Test Cases	140
Pass Percentage	92%
Failed Percentage	6%
Open Defects	3
Closed Defects	6

6. Recommendations

- Fix critical open defects (like THOBR 14, THOBR 19, THOBR 21) before release.
- Perform regression testing after bug fixes.
- Continue tracking user feedback in live/demo environment.

7. Conclusion

Most of the planned test cases for the *Travel Hub – Online Booking and Reservation* system were successfully executed. Out of **140 test cases**, **138 were executed**, while **2 test cases were not executed** due to the requirement of **multiple environment configurations** which were not available during the testing phase. Overall, the application is stable for major functionalities such as registration, login, room reservation, flight ticket booking, attraction search, payment module and profile management.
